Approval date	21 October 2026
Effective date	21 October 2026 — upon formal approval
Review	Following material changes
Website publication	Not confirmed

Approval and commencement are separate from website publication. Publication has not been confirmed.

1. Purpose

1.1 UK Safety Camera Network Ltd (USCN) operates a voluntary, request-based Publication Scheme through which individuals and organisations may request non-personal organisational information.

1.2 The scheme does not require USCN to proactively publish organisational information or automatically disclose information upon request.

2. Information Requests

2.1 Anyone wishing to make a request under this scheme must submit it by email to:

data.protection@datahandling.uscn.org.uk

2.2 This is the designated and required submission address for requests under this scheme.

2.3 Requests sent to other email addresses, submitted by telephone, post or other means do not constitute valid submissions under this voluntary scheme. USCN may direct the person to the designated email address.

2.4 A request should reasonably identify the organisational information sought.

3. Consideration of Requests

3.1 USCN will consider requests received through the designated email address on a case-by-case basis.

3.2 USCN may disclose information, disclose part of the requested information or decline the request.

3.3 Disclosure remains at USCN's discretion, subject to applicable legal obligations.

3.4 USCN is not required under this voluntary scheme to create new information or documents solely to satisfy a request.

4. Responses and Disclosure

4.1 USCN will endeavour to provide an appropriate response within four working weeks of receiving a valid request.

4.2 Where information is approved for disclosure, USCN may provide it directly to the requester by email or another suitable method.

4.3 USCN is not required to publish disclosed information on its website.

4.4 Where a request is declined, USCN will provide a reasonable explanation where appropriate.

5. Complaints and Review

5.1 A requester who is dissatisfied with the handling or outcome of a request may ask USCN to reconsider its decision.

5.2 Requests for reconsideration must be submitted to data.protection@datahandling.uscn.org.uk.

5.3 USCN will acknowledge and respond to requests for reconsideration, although it may decline to undertake a substantive review where appropriate.

5.4 The Data Protection Officer shall oversee the handling of complaints and requests for reconsideration.

6. Governance and Availability

6.1 The Data Protection Officer is responsible for the ownership, approval and maintenance of this scheme.

6.2 The full approved scheme shall be made available on an appropriate USCN website.

6.3 The scheme shall take effect upon formal approval by the Data Protection Officer. Approval and website publication are separate activities.

6.4 The scheme shall be reviewed when material changes justify reconsideration. No fixed periodic review is required.

6.5 Material amendments require formal approval by the Data Protection Officer.

6.6 Nothing in this voluntary scheme limits or replaces any separate legal rights or obligations.
